

LOTS OF ROBOTS!

THE ME 2011 ROBOT SHOW

Monday December 14, 2009, 2:40-4:30 PM

McNamara Alumni Center

University of Minnesota

For the past six weeks, 210 college students in an introductory design course in Mechanical Engineering have been designing and building robots. Their task was to create a machine which “does something interesting”. The results of their efforts will be on public display at the Robot Show. It will be one of the largest collections of robots ever assembled in the

Twin Cities and will be fun for kids of all ages. We invite you to join us for this exciting event. The McNamara Alumni Center is at 200 Oak St. S.E., Mpls, on the East Bank campus of the University of Minnesota. More details, including directions are posted on the web site listed below, or you may contact Prof. Will Durfee (625-0099, wkdurfee@umn.edu)
