Instructions for Accessing LINCAGES Software on CSE Lab Computers

1. On a CSE Lab computer, go to Start -> All Programs -> Software Center

![Software Center]

2. A software list is shown under “Available Software” tab. Select Lincages and Click “Install Selected” on the lower left corner.
3. The software center automatically switches to “Installation Status” tab. It shows Lincages is being installed.
4. A shortcut of Lincages.exe should be shown in your program list. If not, you can search it from “Start”

5. Execute Lincage.exe, an error message will pop up. Click ‘Ignore’ and then click ‘OK’ when another blank error message box appears.

6. The Lincages main window shows and you can start using it.
