45 Deg Light Case Geometry

74.37 mm from ref line to center of first punched hole

53.07 mm vert offset from ref point to center of first hole

50 mm vert offset from ref point to cover cut line

Ref point: Intersection of ref lines

38.43 mm (typ)

7/16" punched hole (1 of 4)

COVER CUT LINE

8001 mm (ref point right hand manifold to ref point left hand manifold)

Ref line: Outside face of extrusion #1

Ref line: Bottom face of manifold
